INTRODUCTION

The checklist includes 3678 taxa in 3441 species, 1124 genera and 244 families. Of these taxa, 200 are exotic. The number of taxa in each family is shown in Table 1. The total number of taxa is only a rough approximation, due to the need for further examination of a number of specimens to confirm identifications and to clarify disparities between identifications in PRE and SDNH for matching specimen numbers. In addition, there are plant taxa yet to be collected which have been observed as present in Swaziland. Notably, there are a number of exotic species which have been observed in Swaziland but for which there are currently no herbarium specimens.

The main checklist includes only those taxa where a specimen was found. In order to facilitate future updates of the checklist, a number of taxa and/or specimens which have been excluded from the main checklist are listed in the appendices. Appendix 1 lists taxa which have previously been quoted in Swaziland flora publications but are no longer believed to occur in Swaziland. A number of taxa which require confirmation are included in Appendix 2. These include specimens where there is a query with regard to the identification, as well as taxa which have been observed in Swaziland, but no specimen was found. The PRECIS database lists a number of taxa as being present in Swaziland, but without a corresponding specimen, and these are listed in Appendix 3. Some of these records might be due to a specimen being reidentified, but without the presence in Swaziland being corrected in the database for the previous name. Specimens where the current identification is only to genus level can be found in Appendix 4.

Checklist Compilation Process

Work on compiling this checklist was commenced in June 2001, with the preparation of a customised database specifically for this checklist. Data was then obtained from various sources and converted into an appropriate format to import into the database. The database was used for cross-checking information, and wherever possible, eliminating errors.

Data Sources:

Herbarium Databases:
PRECIS - NBI Pretoria Herbarium, South Africa
SDNH - Swaziland National Herbarium, Malkerns, Swaziland

Previous Publications:
Compton, R.H. (1966). An Annotated Check-List of the Flora of Swaziland. J. S. Afr. Bot. Supplementary Vol. No. 6.
Compton, R.H. (1976). The Flora of Swaziland. J. S. Afr. Bot. Supplementary Vol. No. 11.
Kemp, Ellen (1981). Additions and Name Changes to the Flora of Swaziland. Swaziland National Trust Commission Occasional Publication No. 1.
Kemp, Ellen (1983). A Flora Checklist for Swaziland. Swaziland National Trust Commission Occasional Publication No. 2.

Other:
Provisional Swaziland Flora Checklist (1993) - K P Braun.
Information from plant collectors who have carried out collection activities in Swaziland over the last thirty years.

Data Quality:

PRECIS:
The quality of data obtained from the PRECIS database is dependant on how it was originally entered into the database. As a result of this, there are occasional errors due to mis-spellings of collector names or numbers. There are also a number of duplicate specimen numbers, sometimes listed as completely different taxa, sometimes as closely related taxa. Where possible, these have been resolved.

SDNH:
There are a number of specimens where duplicate material is held in PRE, but the identifications differ. These are quoted in the checklist under the taxon assigned by PRE, with the SDNH identification indicated next to the relevant collector number.

The contents of the herbarium have now been computerised, but there are still a number of specimens which have not yet been processed into the herbarium, so these do not appear on the checklist.

New records for Swaziland:

In addition to material in the Pretoria and Swaziland herbaria, information has been received from Kew Herbarium, Graham Deall, Linda Dobson-Loffler and Peter Goldblatt, as well as the list of Pteridophyta collected by Dr J.P. Roux in May 2002.

Number of specimens quoted:

This checklist has been compiled from a total of approximately 23 500 specimens collected in Swaziland. Of these, 8593 specimens have been quoted, a maximum of three specimens being listed per taxon.

Map 1. Swaziland – Roads, Rivers, Borders

SWAZILAND'S PHYTOGEOGRAPHY

Location

Swaziland lies between 25 and 28 degrees south and 30 and 33 degrees east in the south eastern part of Africa. The country is landlocked and covers an area of 17364 km^2. It is bounded by South Africa in the north, west and south and Mozambique on the east. Although Swaziland is small in size, it has great variation in landscape, geology and climate (GOS 1997). It lies within the Maputaland Centre of Plant Diversity (one of the world's hotspots of floral and faunal species richnes and endemism), and the Drakensberg Escarpment Endemic Bird Area (another area of global significance) (GOS *in prep*).

Swaziland is located between the Transvaal plateau (reaching over 1500 metres) and the coastal plains of Natal, Mozambique and NE Transvaal. Thus the western part of the country lies in an escarpment area, and the eastern part in the zone of the coastal plains. The Lubumbo mountain range separates the Swaziland coastal plains from the Mozambique coastal plains.

Biomes

The following biomes are recognised in southern Africa: desert, fynbos, succulent karroo, nama karroo, grassland, savanna and forest. In Swaziland only the forest, savanna and grassland biomes occur. A fourth ecosystem is recognised in Swaziland and that is the aquatic ecosystem. Therefore the four major ecosystems of Swaziland (GOS *in prep*) are:

Montane Grasslands
Savanna Wood land mosaic
Forests
Aquatic systems.

Physiographic zones

The country has been divided into six (formerly four) physiographic regions taking into account elevation, landforms, geology, soils, and vegetation (Remmelzwaal 1993).

The Highveld is the upper part of an overall escarpment, with an altitudinal range of 900 – 1400m above sea level (asl). The underlying geology is mainly granite. It consists of a complex of steep slopes between low and high levels, dissected plateaux, plateau remnants, and associated hills, valleys and basins. It is an area of short grassland with patches of forest.

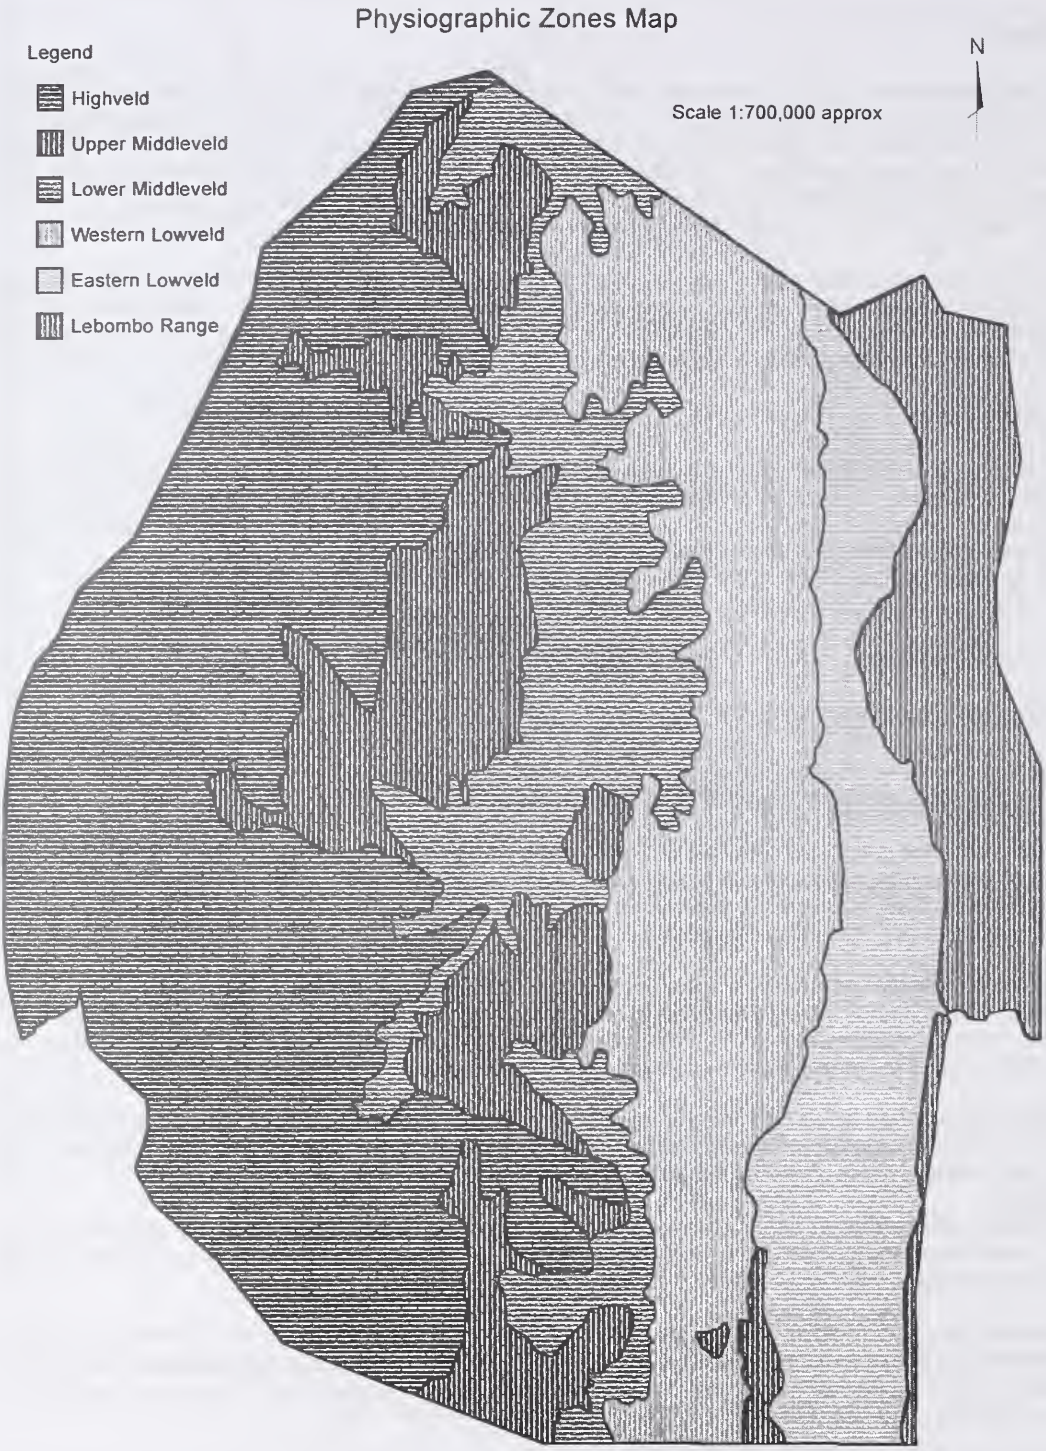
The Upper Middleveld, at an intermediate level of the overall escarpment has an altitudinal range of 600 – 800m asl. With a granodiorite/granite base, it consists of strongly eroded plateau remnants and hills. It also contains structurally defined basins in relatively protected positions, which are only weakly eroded. The vegetation is mainly tall grassland with scattered trees and shrubs.

The Lower Middleveld is basically the piedmont zone of the escarpment (400 – 600m asl), characterised by generally strongly eroded foot slopes. Gneiss dominates the underlying geology while rolling plains with basins and isolated hills characterize the landscape. The vegetation type is broadleaved savanna.

The Western Lowveld plain, lying between about 250 – 400m asl., is underlain by sedimentary and volcanic Karroo beds consisting of sandstone and claystone. The topography in this region is an undulating plain. Mixed savanna is the main vegetation type of the region.

The Eastern Lowveld at about 200 – 300m asl., is also underlain by sedimentary and volcanic Karroo beds but consisting of basalt as opposed to the sandstone and claystone of the Western Lowveld. The plains of this region take a gentler undulating form than those of the Western Lowveld and the savanna vegetation is acacia dominated.

The Lubombo Plateau is a cuesta with a steep escarpment bordering the Eastern Lowveld and a gradual dip slope of about 1:20 descending east. It is underlain by ignimbrite made up of mainly rhyolite and andesite. The landscape is an undulating plateau with steeply dissected escarpment. The Lubombos are characterised by hillside bush and plateau savanna (bush clump and broadleafed).



Map 2. Swaziland - physiographic zones

Guidelines for Using the Checklist

Numbering and nomenclature system:

The checklist is arranged in taxonomic order by genus, with species being listed alphabetically under the relevant genus. The arrangement for Cryptograms is according to PRECIS listings which correspond with the numbering system used by Leistner (2000) for flowering plants, the Pteridophyta according to the Conspectus of southern African Pteridophyta (Roux, 2001) and the flowering plants according to Seed plants of southern Africa: families and genera (Leistner, 2000). Naturalised taxa are indicated by an asterisk preceding the taxon name.

Voucher specimens:

Specimens are quoted by collector name and number. Where there is more than one collector with the same last name, initials have been included. Where it is known, the herbaria where the specimens are lodged are included in brackets following the collector number.

Reference to previous publications:
In order to facilitate use of the checklist as well as for future updates, all taxa which were quoted in previous publications of Swaziland's flora have been marked using a number following the taxon name:

1 - Compton (1966)
2 - Compton (1976)
3 - Kemp (1981)
4 - Kemp (1983)

Specimens which were quoted in Compton (1976), Kemp (1981) and Kemp (1983) are coded as follows:

C - Compton (1976)
K81 - Kemp (1981)
K83 - Kemp (1983)

If these specimens were included under a different taxon, this information is shown following the relevant code.

Name changes:

Name changes, whether synonyms or reidentifications, have only been included if the taxon was quoted in one of the four previous Swaziland flora publications. They are indicated in italics below the relevant taxon with the reference indicated as above, and should not necessarily be considered to be synonyms. The names used in this checklist are as per the PRECIS database, January 2004.

Key:

(This can also be found on the inside back cover of this publication.)

(*F.thonningii* sensu Kemp (1983))
(*F.thonningii* sensu Kemp (1983))
burtt-davyi Hutch.
sansibarica Warb. **subsp. sansibarica**

URTICACEAE

Urtica L.
***urens** L.
1978000 **URERA** Gaudich.
trinervis (Hochst.) Friis & Immelman

PROTEACEAE

GrevilleA R.Br. ex Knight
***robusta** A. Cunn.

VISCACEAE

2093000 **VISCUM** L.
menyharthii Engl. & Schinz

SANTALACEAE

2108000 **OSYRIS** L.
quadripartita Salzm. ex Decne.
2118000 **THESIUM** L.
gracilentum N.E.Br. [1 2 4]
nationae A.W.Hill

OLACACEAE

2136000 **XIMENIA** L.
americana L. var americana

HYDNORACEAE

2182000 **HYDNORA** Thunb.
africana Thunb.

POLYGONACEAE

2195000 **RUMEX** L.
***crispus** L.
dregeanus Meisn. **subsp. montanus** B.L.Burtt
***nervosus** Vahl. **var usamarensis** Dammer.

CHENOPODIACEAE

2223000 **CHENOPODIUM** L.
***carinatum** R.Br. [4]
***phillipsianum** Aellen
2229000 **ATRIPLEX** L.
***nummularia** Lindl. **subsp. nummularia**

NYCTAGINACEAE

2347010 **COMMICARPUS** Standl.
fallacissimus (Heimerl) Pohnert
2349000 **BOERHAVIA** L.
***diffusa** L. **var acuta** Balle
***erecta** L. [4]

MESEMBRYANTHEMACEAE

2405033 **DELOSPERMA** N.E.Br. emend. **L**avis
pachyrhizum L.Bolus [4]
(*D.pachyrrhizum* sensu Compton (1966))

CARYOPHYLLACEAE

2429000 **STELLARIA** L.
***media** (L.) Vill.

ANNONACEAE

2673000 **UVARIA** L.
lucida Benth. **subsp. lucida**

LAURACEAE

2788000 **OCOTEA** Aubl.
kenyensis (Chiov.) Robyns & R.Wilczek

BRASSICACEAE

2883000 **LEPIDIUM** L.
africanum (Burm.f.) DC. **subsp. divaricatum** (Aiton) Jonsell
capense sensu Sond.

CAPPARACEAE

3106000 **BOSCIA** Lam.
mossambicensis Klotzsch

DROSERACEAE

3136000 **DROSERA** L.
collinsiae N.E.Br. ex Burtt Davy [1 2 4]

CRASSULACEAE

3165000 **BRYOPHYLLUM** Salisb.
***delagoense** (Eckl. & Zeyh.) Schinz

PEDALIACEAE

7780000 **DICEROCARYUM** Bojer
zanguebarium (Lour.) Merr. **subsp. zanguebarium**
(*D.zanguebarium subsp. zanguebarium* sensu Compton (1966))

GESNERIACEAE

7823000 **STREPTOCARPUS** Lindl.
confusus Hilliard **subsp. lebomboensis** Hilliard & B.L.Burtt [4]

ACANTHACEAE

7973000 **BARLERIA** L.
monticola Oberm. [1 2]

RUBIACEAE

8352030 **PSYDRAX** Gaertn.
livida (Hiern) Bridson
(*Canthium huillense* sensu Compton (1966))
8381000 **COFFEA** L.
***arabica** L.
8489000 **RUBIA** L.
petiolaris DC. [1]

DIPSACACEAE

8541000 **CEPHALARIA** Schrad.
decurrens (Thunb.) Roem. & Schult.
(*C.ustulata* sensu Compton (1966))

CUCURBITACEAE

8599010 **CUCUMELLA** Chiov.
cinerea (Cogn.) C.Jeffrey
(*Melothria cinerea* sensu Compton (1966))

CAMPANULACEAE

8668010 **CRATEROCAPSA** Hilliard & B.L.Burtt
congesta Hilliard & B.L.Burtt

LOBELIACEAE

8694000 **LOBELIA** L.
thermalis Thunb. [1 2]
(*L.thermalis var thermalis* sensu Kemp (1983))
8695000 **MONOPSIS** Salisb.
scabra (Thunb.) Urb. [3 4]

ASTERACEAE

CoreopsiS L.
***lanceolata** L.
***macrocephalum** (Less.) DC.
8816020 **CHROMOLAENA** DC.
***odorata** (L.) R.M.King & H.Rob.
8919000 **FELICIA** Cass.
smaragdina (S.Moore) Merxm. [1]
8926000 **CONYZA** Less.
***dioscoridis** Desf.
8929000 **NOLLETIA** Cass.
rarifolia (Turcz.) Steetz [1]
8992000 **GNAPHALIUM** L.
***coarctatum** Willd.
***pensylvanicum** Willd.
***polycaulon** Pers. [4]
***subfalcatum** Cabrera
8992020 **TROGLOPHYTON** Hilliard & B.L.Burtt
parvulum (Harv.) Hilliard & B.L.Burtt
(*Gnaphalium cf. parvulum* sensu Compton (1966))
8992040 **PLECOSTACHYS** Hilliard & B.L.Burtt
serpyllifolia (P.J.Bergius) Hilliard & B.L.Burtt
9006000 **HELICHRYSUM** Mill.
aureum (Houtt.) Merr. **var aureum**
elegantissimum DC. [1]
junodii Moeser
marginatum DC. [1]
nanum Klatt [1]
panduratum O.Hoffm. **var panduratum** [4]
psilolepis Harv.
rotundatum Harv.
(*H.coriaceum* sensu Kemp (1983))
9090000 **GEIGERIA** Griess.
filifolia Mattf.
9146000 **AMBROSIA** L.
***artemisiifolia** L.
9148000 **XANTHIUM** L.
***spinosum** L. [1 4]
9238000 **COSMOS** Cav.
***bipinnatus** Cav.
(*Bidens formosa* sensu Kemp (1983))
***sulphureus** Cav.
(*Bidens sulphurea)*
9326010 **INULANTHERA** Källersjö
thodei (Bolus) Källersjö
(*Athanasia thodei* sensu Compton (1966))
9406000 **CINERARIA** L.
canescens J.C.Wendl. ex Link
9411000 **SENECIO** L.
glanduloso-pilosus Volkens & Muschl. [1]
macrocephalus DC.
quinquelobus (Thunb.) DC. [1]
subrubriflorus O.Hoffm.
9427020 **CHRYSANTHEMOIDES** Fabr.
monilifera (L.) Norl. **subsp. septentrionalis** Norl. [4]
9462000 **CIRSIUM** Mill. emend. Scop.
***vulgare** (Savi) Ten. [4]

APPENDIX 3: Taxa listed as present in Swaziland according to PRECIS, but no collector information

GEOCALYCACEAE

9728000 **LOPHOCOLEA** (Dumort.) Dumort.
martiana Nees

STANGERIACEAE

0002000 **STANGERIA** T.Moore
eriopus (Kunze) Baill.

POACEAE

9901160 **PANICUM** L.
comorense Mez
9901280 **SETARIA** P.Beauv.
plicatilis (Hochst.) Engl.

CYPERACEAE

0459000 **CYPERUS** L.
longus L. **var tenuiflorus** (Rottb.) Boeck.
macrocarpus (Kunth) Boeck.
(*Mariscus macrocarpus)*
margaritaceus Vahl **var margaritaceus**

pectinatus Vahl
rigidifolius Steud. [4]
0459010 **PYCREUS** P.Beauv.
globosus sensu Podlech , non (All.) Rchb.
0468030 **BOLBOSCHOENUS** (Asch.) Palla
maritimus (L.) Palla
(*Scirpus maritimus* sensu Kemp (1983))
0471010 **BULBOSTYLIS** Kunth
filamentosa (Vahl) C.B.Clarke
0471020 **ABILDGAARDIA** Vahl
hygrophila (Gordon-Gray) Lye

XYRIDACEAE

0826000 **XYRIS** L.
congensis Büttner
(*X.cf. umbilonis* sensu Compton (1966))
(*X.congoensis* sensu Kemp (1983))

COLCHICACEAE

0969000 **ANDROCYMBIUM** Willd.
swazicum U.& D.Müll.-Doblies

ASPHODELACEAE

1026000 **ALOE** L.
castanea Schönland
cooperi Baker **subsp. pulchra** Glen & D.S.Hardy

HYACINTHACEAE

1079000 **ALBUCA** L.
fastigiata Dryand. [1 2 4]
1082000 **DRIMIA** Jacq. ex Willd.
multisetosa (Baker) Jessop
(*Urginea multisetosa)*
1090010 **LEDEBOURIA** Roth
macowanii (Baker) S.Venter

AGAVACEAE

1219000 **AGAVE** L.
***americana** L. **subsp. americana var americana**

HYPOXIDACEAE

1230000 **HYPOXIS** L.
exaltata Nel

IRIDACEAE

1311000 **GLADIOLUS** L.
pubigerus G.J.Lewis
scabridus Goldblatt & J.C.Manning

ORCHIDACEAE

1434000 **DISA** P.J.Bergius
sankeyi Rolfe
welwitschii Rchb.f. **subsp. welwitschii**
1437000 **DISPERIS** Sw.
anthoceros Rchb.f.
1468000 **NERVILIA** Comm. ex Gaudich.
crociformis (Zoll. & Moritzi) Seidenf.
1648000 **EULOPHIA** R.Br. ex Lindl.
aculeata (L.f.) Spreng. **subsp. huttonii** (Rolfe) A.V.Hall [1]
milnei Rchb.f.
zeyheriana Sond.

PIPERACEAE

1866000 **PEPEROMIA** Ruíz & Pav.
retusa (L.f.) A.Dietr. **var bachmannii** (C.DC.) Düll
(*P.retusa* sensu Compton (1976), Kemp (1983))

SALICACEAE

1872000 **POPULUS** L.
***x canescens** (Aiton) Sm.

MORACEAE

1913000 **MORUS** L.
***alba** L. **var alba**
1961000 **FICUS** L.
tremula Warb. **subsp. tremula**

LORANTHACEAE

2074090 **PLICOSEPALUS** Tiegh.
amplexicaulis Wiens

POLYGONACEAE

2194000 **EMEX** Campd.
australis Steinh.

AMARANTHACEAE

2328000 **ACHYRANTHES** L.
***aspera** L. **var pubescens** (Moq.) C.C.Towns.

AIZOACEAE

2401000 **AIZOON** L.
glinoides L.f. [1 2 4]

BASELLACEAE

2428000 **ANREDERA** Juss.
***cordifolia** (Ten.) Steenis

RANUNCULACEAE

2542000 **CLEMATIS** L.
commutata Kuntze

ANNONACEAE

2673000 **UVARIA** L.
gracilipes N.Robson
2724000 **ARTABOTRYS** R.Br.
monteiroae Oliv.
2733000 **MONODORA** Dunal
junodii Engl. & Diels **var junodii**

LAURACEAE

2788000 **OCOTEA** Aubl.
bullata (Burch.) Baill.

CAPPARACEAE

3101000 **CAPPARIS** L.
brassii DC.
sepiaria L. **var citrifolia** (Lam.) Toelken

FABACEAE

3746000 ***INDIGOFERA***
dregeana E.Mey.
3446000 **ACACIA** Mill.
natalitia E.Mey. [1]
3528020 **ADENOLOBUS** Torre & Hillc.
garipensis (E.Mey.) Torre & Hillc.
3669000 **CROTALARIA** L.
mollii Polhill
monteiroi Taub. ex Baker f. **var monteiroi**
3702000 **INDIGOFERA** L.
dregeana E.Mey.
3905000 **VIGNA** Savi
vexillata (L.) A.Rich. **var ovata** (E.Mey.) B.J.Pienaar

RUTACEAE

3991000 **ZANTHOXYLUM** L.
leprieurii Guill. & Perr.

BURSERACEAE

4151000 **COMMIPHORA** Jacq.
glandulosa Schinz [4]
schlechteri Engl.

EUPHORBIACEAE

4498010 **EUPHORBIA**
knobelii Letty
4299000 **PHYLLANTHUS** L.
cinereoviridis Pax
4348000 **CROTON** L.
gratissimus Burch. **var subgratissimus** (Prain) Burtt Davy
4498000 **EUPHORBIA** L.
knobelii Letty

CELASTRACEAE

4627000 **GYMNOSPORIA** (Wight & Arn.) Hook.f.
angularis (Sond.) Sim **var orbiculata** Davison

VITACEAE

4918010 **CYPHOSTEMMA** (Planch.) Alston
humile (N.E.Br.) Desc. ex Wild & R.B.Drumm. **subsp. humile**

STERCULIACEAE

5056000 **HERMANNIA** L.
cordata (E.Mey. ex E.Phillips) De Winter

VIOLACEAE

5271000 **HYBANTHUS** Jacq.
***enneaspermus** (L.) F.Muell. **var enneaspermus**

CACTACEAE

5401000 **CEREUS** Mill.
***jamacaru** DC.
5416000 **RHIPSALIS** Gaertn.
baccifera (Roem. & Schult.) Stapf **subsp. mauritiana** (DC.) Barthlott
5417000 **OPUNTIA** Mill.
***stricta** Haw.

LYTHRACEAE

5486000 **NESAEA** Kunth
ondongana Koehne **subsp. ondongana var evansiana** (A.Fern. & Diniz) A.Fern.
schinzii Koehne

COMBRETACEAE

5539000 **PTELEOPSIS** Engl.
myrtifolia (M.A.Lawson) Engl. & Diels

OLEACEAE

6428000 **CHIONANTHUS** L.
foveolatus (E.Mey.) Stearn **subsp. major** (I.Verd.) Stearn
6440000 **JASMINUM** L.
stenolobum Rolfe

GENTIANACEAE

6481000 **SEBAEA** Sol. ex R.Br.
natalensis Schinz

APOCYNACEAE

6787020 ***ASCLEPIAS***
compressidens (N.E.Br.) Nicholas
6791000 **ASCLEPIAS** L.
compressidens (N.E.Br.) Nicholas
6870000 **BRACHYSTELMA** R.Br.
gemmeum R.A.Dyer
6874000 **CEROPEGIA** L.
decidua E.A.Bruce **subsp. pretoriensis** R.A.Dyer

CONVOLVULACEAE

6978000 **SEDDERA** Hochst.
capensis (E.Mey. ex Choisy) Hallier f.
7003000 **IPOMOEA** L.
magnusiana Schinz
(*I.magnusiana var eenii* sensu Compton (1966), Kemp (1983))

LAMIACEAE

7186000 **VITEX** L.
ferruginea Schumach. & Thonn.
(*V.ferruginea subsp. amboniensis var amboniensis)*
7191000 **CLERODENDRUM** L.
suffruticosum Gürke **var suffruticosum**

SCROPHULARIACEAE

7476000 **NEMESIA** Vent.
albiflora N.E.Br.
rupicola Hilliard
7519000 **SUTERA** Roth
polelensis Hiern **subsp. fraterna** Hilliard
7566000 **HEBENSTRETIA** L.
oatesii Rolfe **subsp. intermediate between subsp. oatesii and subsp.** rhodesiana
7568000 **SELAGO** L.
villosa Rolfe
7568030 **GLOBULARIOPSIS** Compton
wittebergensis Compton

OROBANCHACEAE

7624000 **RHAMPHICARPA** Benth. emend. Engl.
brevipedicellata O.J.Hansen

PEDALIACEAE

7777000 **SESAMUM** L.
capense Burm.f.

RUBIACEAE

8278030 **COPTOSPERMA** Hook.f.
nigrescens Hook.f.
(*Tarenna nigrescens)*
8381000 **COFFEA** L.
zanguebariae Lour.
8438000 **ANTHOSPERMUM** L.
rigidum Eckl. & Zeyh. **subsp. pumilum** (Sond.) Puff
8486000 **GALIUM** L.
scabrelloides Puff [4]

ASTERACEAE

8751000 **VERNONIA** Schreb.
glabra (Steetz) Vatke **var laxa** (Steetz) Brenan
8751020 **DISTEPHANUS** Cass.
anisochaetoides (Sond) H.Rob. & B.Kahn
8941000 **PLUCHEA** Cass.
bojeri (DC.) Humbert
8992060 **GAMOCHAETA** Wedd.
***pennsylvanica** (Willd.) Cabrera
(*Gnaphalium pensylvanicum)*
***subfalcata** (Cabrera) Cabrera
(*Gnaphalium subfalcatum* sensu Kemp (1983))
9006000 **HELICHRYSUM** Mill.
decorum DC. [4]
9195000 **ASPILIA** Thouars
natalensis (Sond.) Wild
9196000 **TITHONIA** Desf. ex Juss.
***rotundifolia** (Mill.) S.F.Blake [4]
9411000 **SENECIO** L.
austromontanus Hilliard
conrathii N.E.Br. [4]
gregatus Hilliard
(*S.serratuloides var gracilis* sensu Kemp (1983))
9501000 **DICOMA** Cass.
anomala Sond. **subsp. gerrardii** (Harv. ex F.C.Wilson) S.Ortíz & Rodr.Oubiña
(*D.gerrardii* sensu Compton (1966))
capensis Less.
swazilandica S.Ortíz, Rodr.Oubiña & Pulgar
9592000 **TARAXACUM** F.H.Wigg.
***officinale** Weber [1 4]
